Security Industry DIN-Rail WEB Managed PoE Industrial Switch

Security Industry DIN-Rail WEB Managed PoE Industrial Switches at most can support 4 100/1000BaseX SFP ports + 8 10/100/1000BaseT PoE ports, which are specially designed for harsh industrial environments, providing economic solutions for industrial Ethernet switch. And the working temperature of these switches is -40°C~+75°C.

Security Industry DIN-Rail WEB Managed PoE Industrial Switches adopt redundant dual power inputs, 48~54VDC, DIN-Rail mounted, which can provide up to 30W for each PoE port. With rugged aluminum alloy housing, IP40 protection class, these switches passed the high level tests of EMI/EMC. And the switches have gone through the strict aging test, meeting the requirements of security industry.
